

A Statewide Policy Plan

DelDOT Statewide Bike Plan Public Workshops

Delaware is No. 3 in the latest League of American Bicyclists Bicycle-Friendly State rankings. This has been the result from building and investing in the bicycle network of trails and on-road facilities to programs and policies that support bicyclists and educate the public. DelDOT and its partners are beginning the planning process that will define a broad vision for bicycling. The process will evaluate the opportunities to improve policies, programs and processes that relate to bicycling. DelDOT and its partners will then create an action plan to implement the recommendations. The first major step in the planning process is to hear from the public regarding its vision, priorities and preferences for bicycling. Public Workshops are scheduled for February 2017 and March 2017 to hear ideas from bicyclists of all skill levels as well as non-bicyclists. There will be two workshops in New Castle County, one in Kent County and one in Sussex County. In addition to the public workshops, the public may learn more about the project and submit input by visiting the project page at
